

OARC 10-meter Net Preamble

QST QST QST: This is amateur radio station WB7RLX, the net control station for the Ogden Amateur Radio Club 10-meter net. This is an informal net and all who want to participate are encouraged to check in. You do not need to be a member of the OARC to participate. We would especially like to encourage those with Technician class licenses to join in.

This net originates in Ogden Utah and meets every Thursday evening at 7:00PM mountain time. The purpose of this net is to promote activity on the 10-meter band and to focus on 10 meter specific activity with the goal of preparing for Cycle 25 and to share information regarding 10 meters. Additionally, to work together in an effort to develop and improve our ability to operate effectively on 10 meters.

In just a moment we will the rollcall after which we will ask for any late check-ins and finally for any guests and out of area stations. After we get everyone checked in we will then go back to our check-ins for their comments. All stations are encouraged to relay any stations not recognized by net control.
