FROM THE EDITOR

NOVEMBER 2024

This month marks the beginning of a new adventure for me. Having published other ham radio club newsletters in the print mode over the years, I am well aware of how important newsletters can be to the well-being of these organizations. This electronic version saves the club money that it would normally spend on printing and mailing. Thanks to Val Campbell, K7HCP, for the many years of seeing to the publishing of WATTS NEWS, a great achievement to be sure. WATTS NEWS is now known for reaching a nationwide audience.

Please send any newsletter specific submissions to my email address:

[below500kc@gmail](mailto:below500kc@gmail.com)

If any material also needs to be put on the club's webpage then send to Val Campbell:

val@k7hcp.com

and Cc: me so we don't miss any important news.

Most of the newsletter will continue its present form. I do want to add a page of **Kinks and Hints** and feature newsletter items from **5 and 10 years ago** similar to what QST does.

Monthly messages from our president are a given, but other club officers are encouraged to submit similar material at any time. All club members can write up their projects or experiences and submit them any time as guest contributors.

TNX Kent Gardner, WA7AHY

Craig's Corner - A Message from our President

Craig Howe

W0VRM

Craig's Corner November 2024

Hello ham family,

We had a great time at our annual club auction in September. Thank-you to everyone who generously contributed equipment and those who generously bid each other up to contribute to the club!

This month we look forward to hearing from Rick Mead W7VQ talking about the National Traffic System. Rick serves with the state level of ARRL and is an exceptionally experienced operator.

In December we look forward to coming together with our families again for our annual Christmas Party. We will be at the City Buffet in Roy again at 5:00 pm. Bring an inexpensive gift to share for our gift exchange. We will also have gift certificates again (club members are eligible).

I love all of the outside activities we do during the summer months, but there is something very unique and special about gathering together in person to celebrate the hobby and service of radio.

I am honored and happy to simply be a part of this club and enjoy seeing and experiencing the richness of each of your skills, talents, and seeing you generously share these gifts with others.

Thanks to Gale Sjol for accepting the invitation to serve as our QSL Manager. Thanks to Kent Gardner for accepting the invitation to serve as our Newsletter Editor.

I invite each of you to consider the opportunity to help our club with these additional needs that we have.

Antenna Manager

External Service Events Coordinator

If you would like to serve in one of these positions or have questions about the need and importance of these opportunities please let me know at

craigshowe@gmail.com

(801) 390-3958.

73 until next time,

Craig W0VRM

NOTICE

Congratulations to OARC's new QSL Manager

Gale Sjol WDOCWK

OARC QSL Manager

OARC's QSL manager duties are as follows:

This volunteer position requires action usually only one period of time each year, primarily in May.

On the 10th of May each year, OARC's Golden Spike Special Event Station W7G makes contacts with other stations whereas OARC offers to send our Special Event QSL Card to each station contacted who first sends us their QSL card.

Action required includes the following:

Pickup the QSL cards that are sent to OARC from OARC's PO Box about 3 times during the month of May, starting soon after the 10th of May and again later that month

Fill out an OARC W7G Special Event QSL Card for return to the sender by filling in the specific contact information found on each QSL card received.

Address a return envelope with postage and place our Special Event QSL Card in same.

Repeat step 2 and 3 for each QSL card received.

Mail the batch of return QSL card envelopes.

Return to the OARC PO Box a few more times, later in May and early June to pick up any late arrival QSL cards.

Repeat step 2 thru 5 above for each batch of QSL cards received.

Notes:

On occasion there may be an occasional QSL card received from time to time to also handle as stated above.

The USPO Box key will be provided.

US postage may have to be purchased from time to time but will be re-imbursed.

Return envelopes may have to be purchased from time to time but will be re-imbursed.

OARC W7G Special Event QSL Card stock may have to be replenished from time to time (years) but will be re-imbursed. Just take a sample card to Staples and request a small batch (100) order.

ENJOY!

Page down for example QSL card.

W7G - Ogden Amateur Radio Club
W7SU – Since 1921
P.O. Box 3353, Ogden UT 84409 U.S.A.

www.OgdenARC.org
www.W7G.org

The Golden Spike was 5-5/8 inches long, weighed 14.03 ounces and was made of 17.6 carat gold. It was engraved on all four sides and the top. Two sides bore the names of railroad officers and directors. Another side was engraved, "The Pacific Railroad ground broke Jan 8th 1869". The forth side was engraved, "May God continue the unity of our country as the railroad unites the two great oceans of the world. Presented David Hewes San Francisco". The top of the spike was simply engraved, "The Last Spike".

NOTICE

***Congratulations to OARC's new WATTS NEWS
Newsletter Editor***

Kent Gardner, WA7AHY

OARC News Letter Editor – Watts News

OARC's News Letter Editor - duties are as follows:

This volunteer position requires a deliverable once a month.

Action required includes the following:

Prior to the 2nd weekend of each month the newsletter editor will deliver to the OARC web master for distribution, via email, a new edition of the OARC Newsletter – WATTS NEWS.

The content of the newsletter is at the option of the editor.

The newsletter development tool is at the option of the editor.

This deliverable should be in the format of a single .PDF file.

Notes:

Newsletter development tools used the past 20 years has been Microsoft Publisher.

An alternative that could be considered would be Microsoft Office.

The current editor used Publisher and published the newsletter in the form of a comic strip (no pun intended).

A popular alternative could be to publish the newsletter in the form of a news paper or magazine (two column format).

Newsletter picture content size should be considered and minimized to a reasonable size.

The editor can expect optional content deliverables to be submitted from other club members on occasion and club officers on an on-going basis.

Our club president submits a newsletter article each month.

Our club photographers submit photos from most current events.

The editor can expect to be added to the OARC board members eMail CC: list such as to be kept informed as to the on-going dialog between members as each month progresses.

ENJOY your new calling!

CLUB NEWS

Craig Howe W0VRM

NOTICE

I invite each of you to consider the opportunity to help our club with this additional need that we have.

Needed ...

OARC Antenna Manager

***Contact any club officer if interested.
Don't hesitate, this positions won't last long!***

OARC Antenna Manager

OARC's Antenna Manager - duties are as follows:

This volunteer position entails coordinating the setup, use and take-down of the antennas that are deemed required to support primarily the following three OARC events each year:

Winter Field Day - January

Golden Spike Special Event Station – May

ARRL Field Day - June

Action required includes the following:

The antenna manager should inspect the antennas and feed lines to ensure proper operation once deployed.

The antenna manager should request the support of other club members to assist with this effort.

Deliver the antennas to the event operating site.

Setup the antennas prior to the event.

Take-down the antennas following the event.

Usually there is only one antenna required for each event except Field Day where two antennas are usually required.

That's it!

Good Luck.

CLUB NEWS

Craig Howe W0VRM

I invite each of you to consider the opportunity to help our club with this additional need that we have for a External service events coordinator.

OARC Partner Events Coordinator

The Partner Events Coordinator develops relationships with the several organizations that utilize radio operators for their events.

Such events and partners include: UtahSAG.org, Huntsman Sportsfest, Salt Lake Marathon, DC 50, BARC events, CFF fundraiser (Cystic Fibrosis Foundation).

Additionally, the Coordinator publishes opportunities for club members and follows up to determine how many hours of service have been rendered to be shared as a measure of being recognized as an "ARRL Special Service Club".

Kinks and Hints

After a summer of camping in my 17 foot travel trailer I am in the process of getting it winterized. I also decided to change out the 12 VDC lighting fixtures in favor of the new LED units. About 1/2 of our camping experiences are at Daniels Reservoir West of Malad, Idaho where there is no 110 volt electricity available and there is no cell service. I found that I needed more light over the stove and sink so I have just installed a new LED fixture there. Finding red and black stranded wires was difficult to say the least. Yes, there were spools of red wire and/or black, but they were not molded together side by side or in twisted pair.

I tried Lowes, Home Depot and even Walmart to no avail. I finally found some at the Radio Shack store in Layton. I could have used #24 stranded for the single light, but I found some #10 gauge insulated red and black that I ended up buying. It was big enough to handle a transceiver, but I installed it for the light anyway for future possibilities.

Talk about expensive. The #24 was 59 cents a foot.

The #10 stranded that I purchased was \$30.00 for 15 feet making it \$10.00 for each 5 foot section off a bulk reel. They cut it for you.

I don't know if it was the price of copper or Radio Shack's pricing to stay in business, but I recommend that we go to swap meets and see what similar wires are going for. I suspect it is a lot less.

Bulk wire to be cut to length.

TNX

Kent Gardner, WA7AHY

ARRL ITEMS of INTEREST

Volunteer Monitor Program Report

The Volunteer Monitor (VM) Program is a joint initiative between ARRL and the FCC to enhance compliance in the Amateur Radio Service. This is the July 2024 activity report of the VM Program.

◆ Two licensees in Michigan and Wisconsin received advisory notices to stay off local repeaters, both having received “stay off” directives from the repeater owners. The licensees were informed that further use of the repeaters would be considered deliberate interference and would be referred to the FCC for enforcement action.

◆ Technician-class licensees in Pennsylvania and Michigan received advisory notices for FT8 operation on 40 meters. Technicians have only CW privileges on 40 meters.

◆ A good operator commendation was issued to a licensee in Virginia for exemplary operation as net control of a daily net meeting on 7.251 MHz.

◆ A volunteer monitor alert was issued on July 20 for a pulsing noise on 20 meters. The VM Program Administrator participated in a nationwide online presentation to ARRL Section Managers and participated in one FCC meeting.

The totals for April monitoring were 1,908 hours on HF frequencies, and 2,801 hours on VHF frequencies and above, for a total of 4,709 hours. Totals for May monitoring were 890 hours on HF frequencies, and 1,918 hours on VHF frequencies and above, for a total of 2,808 hours. Totals for June monitoring were 1,210 hours on HF frequencies, and 1,413 hours on VHF frequencies and above, for a total of 2,623 hours.

— *Thanks to Volunteer Monitor Program Administrator Riley Hollingsworth, K4ZDH*

Volunteer Monitor Program Report

The Volunteer Monitor (VM) Program is a joint initiative between ARRL and the FCC to enhance compliance in the Amateur Radio Service. This is the August 2024 activity report of the VM Program.

◆ Licensees in New York, Virginia, and Georgia were issued advisory notices concerning excessively wide signals and splattering, resulting in interference to communications on 14.300 MHz. The Virginia and Georgia stations were also cautioned that the issue would have to be resolved before their licenses would be renewed.

◆ A licensee in Pennsylvania received an advisory notice concerning one-way transmissions and deliberate interference to Field Day operations on 7.200 MHz. A licensee in Georgia received an advisory notice for deliberate interference to the Jarvis Island N5J DXpedition operating CW on 3.527 MHz.

◆ An operator in California received an advisory notice concerning operation of a beacon on 28.244 MHz under an expired license. A licensee in Virginia received an advisory notice concerning deliberate interference on 3.933 MHz and was cautioned that the matter would have to be resolved before his license would be renewed.

◆ A Technician-class licensee in Georgia received an advisory notice concerning SSB operation on 40 meters. Technicians have no voice privileges on 40 meters.

◆ A licensee in Georgia received an advisory notice about causing deliberate interference to a DX station while he was acting as a net control station on 14.290 MHz.

◆ A good operator commendation was issued to a licensee in Illinois for exemplary operation on a 2-meter repeater, assisting new licensees with operating procedures and explaining special event stations.

◆ A volunteer monitor alert was issued on August 6 for interference from an experimental high-speed stock-trading station on 20 meters. Information gathered from the alert resulted in an FCC referral.

◆ The VM Program Administrator participated in one FCC meeting.

The totals for July 2024 monitoring were 1,516 hours on HF frequencies, and 2,857 hours on VHF frequencies and above, for a total of 4,373 hours. — *Thanks to Volunteer Monitor Program Administrator Riley Hollingsworth, K4ZDH*

OARC MEMBERSHIP DRIVE

SUPPORT YOUR RADIO CLUB

Don't forget to signup/renew your OARC membership now (\$15) which runs August to August. Consider signing up your spouse as well. Remember ... FREE Steak at Steak Fry for ALL members.

Ham + Spouse = \$15 + \$10 = \$25

THANK YOU FOR YOUR SUPPORT

Join OARC

Join or Renew your membership now!

Joining & Renewal is easy. On the club website home page click Join/Renew tab and fill out the membership form. You can pay using your PayPal or mail a Check or Money Order to the club PO Box listed. Or print a hardcopy of the membership form, fill it out and mail it to the PO Box along with your payment. Better yet, Come to a club meeting and bring the completed membership form with you.

DUES: Dues are \$15.00 per person and runs August - August. (Ham + spouse = \$25.) More than one ham in the family? Consider the OARC Family plan for \$25.

NOTE: New Hams >>> Membership in OARC is complimentary for remainder of 1st year licensed.

Membership in the Ogden Amateur Radio Club is open to anyone interested in Amateur Radio. You do not need an amateur license to join us. You do not need to join the club to participate with us. Dues are used to operate the club, field day activities, and repeater equipment maintenance.

OARC ARRL MEMBERSHIP DRIVE

WHY JOIN ARRL ?

Join ARRL through OARC and receive a free one-year membership upgrade in OARC

Please consider that you may want to becoming a member of ARRL if you are not currently or have not been for at least two years ...

The Amateur Radio Relay League [ARRL](#) is the national membership association for Amateur Radio operators. ARRL membership includes digital access to “QST” magazine and “On The Air” magazine. Optionally you can sign up for hardcopy subscriptions to the magazines.

OARC is an affiliated ARRL club and has been since 1937. However, to maintain OARC’s affiliation, OARC must maintain that over 50% of our members are also members of ARRL.

Fill out the “joining ARRL through OARC” form, and bring/send it to OARC.

(Check OARC website for actual form)

Club Badges

OARC Club badges are available for all licensed club members.

The cost is **\$25.00** each. The badge comes with a “MAGNETIC” clip. Badge includes your Call Sign in large letters and your First Name in a somewhat smaller font in white lettering on a pitch black background with the club logo. See example below.

Place your order along with **\$25.00** prepaid in advance for each badge ordered and specify Call Sign and First Name.

Visit the club website home page Join/Renew tab and select the Badge Order form to order your badge. You can use PayPal or mail your check to the club PO Box.

Club membership is open to anyone interested in Amateur Radio. You do not need an amateur license to join us. Dues are used to operate the club, field day activities, and repeat-er equipment maintenance.

Club Call Sign

Listen to the club repeaters for this very familiar CW ID. You do know Morse Code don't you?

W7SU

OARC is 100 years old

OARC was established in May 1921 and became ARRL affiliated in 1937.
